

Accessories for the Jetta.

Volkswagen Accessories: More tests for your safety.

The highest testing standards: Strict criteria for selection and uncompromising test procedures in a series of perfectly combined tests ensure even greater safety. With Volkswagen Genuine Accessories.	Volkswagen Genuine Accessories
The following is true also for this expansion to the range of Volkswagen Genuine Accessories: We do more than many other companies and our own tests are subject to standards exceeding the norms.	Trade products
The products are tested for their user safety and usability by the respective manufacturers themselves and, if necessary, by the TÜV, DEKRA or GTÜ (German testing institutes).	Open market

Volkswagen – a brand that, for generations, has stood for quality, safety and innovation. A brand that has not only been an important part of history but has also set trends in development and has gained the trust of millions of people from around the globe. It is thus a brand with a commitment. Down to the smallest detail. As are Volkswagen Genuine Accessories.

More quality

No matter how high the standard is – that is where we start and we set out to raise the bar even further. Using the best materials, state-of-the-art production processes and excellent workmanship. To ensure that good will always keep improving.

More safety

A clear safety principle: More performance requires more commitment. This is why our testing procedures are more stringent, our standards much higher and our test routes much more difficult than others. Always.

More Volkswagen

Each Volkswagen Genuine Accessories product is developed in conjunction with the vehicle itself. The team has a clear goal. Everything has to fit perfectly so that we are able to impress you with high-precision detail, again and again. In other words: so that a Volkswagen stays a Volkswagen.

In a nutshell: You want everything you need to make a lasting impression? Take your pick of Volkswagen Genuine Accessories.

Volkswagen Genuine

Inside rear-view mirror in carbon look

Sportiness and individuality – the Volkswagen Genuine inside rear-view mirror gives the vehicle an extravagant look without great effort. The mirror already fitted in the vehicle is simply replaced with an inside rear-view mirror. Only for cars with manually adjustable anti-glare rear-view mirrors.

Volkswagen Genuine Rear lid protection strip

(Figure above)

The attractive rear protection strip in high-gloss chrome look is not only an attractive eye-catcher, it also effectively protects the edges of the rear lid at the same time. It is easily mounted by simply gluing it onto the bottom edge of the rear lid.

Art. no. 5C6 071 360

Volkswagen Genuine Side skirt kit

(Figure above)

The side skirts give a visual impression of suspension lowering and therefore provide the Jetta with an even more dynamic look. Made of unbreakable and flexible plastic, the side skirts are also able to resist high stress. Both side skirts are primed and ready for painting in the vehicle colour.

Art. no. 5C5 071 685 GRU

Volkswagen Genuine Rear lid spoiler

So little effort, such a great effect: The rear lid spoiler is easy to attach to the Jetta's tailgate in just a few steps. This gives it an even sportier look and even better aerodynamics in just a matter of moments. The rear lid spoiler is made of particularly impact-resistant and durable material, and can be painted in your car colour.

Art. no. 5C5 071 641 GRU

Volkswagen Genuine Tail silencer trim

For the sporty look! The Volkswagen Genuine tail silencer trim with 76 mm diameter significantly enhances the appearance of the rear of the vehicle. The inclined design and high-gloss polished stainless steel transform your vehicle into a true highlight.

Hedonism or top entertainment.

No matter whether your trip is long or short - sometimes, all you want is to be entertained. Your sweetheart's voice, your favourite audiobook or your own personal soundtrack. Go for it! The sophisticated infotainment systems by Volkswagen Genuine Accessories give you access to all sources of entertainment. As often, as long, as loud or quiet as you want. Enjoy!

Volkswagen Genuine iPod adapter

So that you never have to do without your favourite music. Thanks to the Volkswagen Genuine iPod adapter, you can connect your iPod to your Volkswagen Genuine car radio or radio navigation system quickly and easily. The radio or radio navigation system is then used to control the iPod and handle the audio output. This offers you a quick and comfortable way to enjoy first-class listening pleasure, while providing every journey with its own unique soundtrack! Can only be used in conjunction with the "RCD 210", "RCD 310", "RCD 510" radios or the "RNS 510" radio navigation system. Please see the attached price list for more information about the compatible iPod models.

Volkswagen Genuine MEDIA-IN and adapter cable

Do you want to listen to your favourite playlist from your iPod, Walkman mobile phone or USB stick? No problem! Simply select the corresponding adapter cable and connect your desired audio source with the MEDIA-IN multimedia socket in a matter of moments. Then you can immediately use your generation 3 radio and radio navigation system to navigate through your play lists, play your favourite songs and compile your own personal Jetta soundtrack. Only in conjunction with the "RCD 310" and "RCD 510" radios or the "RNS 315" and "RNS 510" radio navigation systems.

Hunger for adventure or full of space?

Everyday adventures can await us around every corner and behind every shop shelf. To experience and enjoy them, you have to keep your eyes open and make space. Space for the right equipment, for any treasures you find, large or small, and - not least - for any contingencies. The easiest, best and most reliable way to do so is with Volkswagen Genuine Accessories

Volkswagen Genuine Roof bars

Well equipped on the move - thanks to the Volkswagen Genuine Accessories roof bar systems. The basis for this are the City-Crash tested roof bars to which, for example, surf board, bicycle, ski and snowboard holder or the practical roof boxes can be attached. Please see the attached price list for more information.

This is how the City Crash Test works

The carrier system is mounted on the vehicle and loaded with the intended load. A typical frontal crash in city traffic is simulated at approximately 30 km/h through horizontal acceleration and forces applied opposite to the travel direction. The carrier system must not detach from the vehicle in the process.

Surfboard holder

The best wind conditions can surprise you anywhere. So it is good to have a convenient and safe place to keep both the board and the required equipment. The surfboard holder has been designed for transporting a surfboard and two masts. Four mast holders and two tensioning straps are included in the scope of delivery. It is quickly and simply attached to the roof bars with the T groove profile.

Towing hitch bicycle carrier

(Figure above)

Transport up to two bicycles easily and safely. The simple mechanism with preset quick-release fastener facilitates rapid installation on the ball head of the towing hitch without tools. The rear lid can still be opened easily, as the carrier can be folded away. In addition, the lockable fastening screws give thieves no chance. An integrated carry handle in the number plate holder and a swivelling carry hanger provide simple handling. A load of up to 50 kg is possible, depending on the load bearing capacity of the towing hitch. An extension set is available for transporting a third bicycle.

Safety is a work of precision.

Music boxes, teething rings, picture books or storybooks, all ages have their own milestones – whether little or large. Every stage of development also has its own challenges. That is why we have developed child safety seats for each age group. Ones that perfectly match the age, mobility and weight of the child. All Volkswagen Genuine child safety seats offer a high level of comfort and simple handling: All covers can be easily removed and can be washed at 30°C. And the most important point: Each individual Volkswagen Genuine child safety seat provides your child with safety at the highest level. Because our testing criteria are much more stringent than legally prescribed and our test procedures are much more comprehensive than the ECE Standards.

Volkswagen Genuine Bobsy G0-1 ISOFIX

The “Bobsy G0-1 ISOFIX” is the safest seating system for children weighing up to 18 kg (up to 4.5 years). The seat is firmly fixed to the vehicle bodywork using the ISOFIX fixing to the base frame, but can also be used without problems in vehicles without the ISOFIX system. The child seat is approved for Groups 0/1, which means they can be used from birth onwards up to a weight of around 18 kg if fitted facing backwards. If they are fitted facing forwards, they are approved for use between 9 and 18 kg. Highlights: The height of the belt harness is adjustable and the seat shells can be locked at six different angles. The base frames for attaching the child seat to the vehicle must be ordered separately.

Volkswagen Genuine Bobsy G2-3 pro

With its seat cushion that can be adjusted in width and the height adjustable sleep support, the “Bobsy G2-3 pro” makes sure that the belt routing is kept snug to the child’s body and is therefore perfect for children between three and twelve years old (15 to 36 kg). The special head part, the side flanks that protrude to the front and the fully upholstered shoulder area provide a high level of comfort and the best possible protection in event of a side collision. The individual height and inclination settings guarantee additional comfort. The seat is attached using a three-point belt.
